

Animals

Streamlined Animal Management

Achieve end-to-end animal management capabilities, whether at a state or local level, covering the entire lifecycle of animals.

- **Efficient registration handling with user-friendly interface:** Efficiently manage inspections, kennel registrations, and scheduling, while issuing comprehensive records with compliance details and managing registration periods, fees, and conditions.
- **Secure online payment capability:** Seamless, secure payments through major payment providers for added convenience.
- **24/7 public animal records:** Access public animal records around the clock.
- **Pound management coverage:** Address pound management comprehensively.
- **Deceased animal management:** Manage deceased animals effectively.
- **Pet owner access & Puppy farm and breeder registration:** Grant pet owners direct pet management access, efficiently handle breeder and puppy farm registrations, and report on animal registration types, numbers, and outcomes as needed.
- **Pension rebate support:** Support pension rebates inclusively and accessibly for broader user reach.
